

Koen Goudriaan

“De 1000 van Gouda”

**Magistraat en vroedschap:
Schepenzegels**

Inleiding

De 1000 van Gouda

De dataverzameling “De duizend van Gouda, de Goudse elite in de middeleeuwen (tot 1589)” heeft een voorgeschiedenis die teruggaat tot de periode 1988-91. In die jaren bezocht ik het Goudse archief met het plan om een systematisch onderzoek te publiceren naar de Goudse elite van de veertiende, vijftiende en zestiende eeuw. Ter voorbereiding verzamelde ik in eerste instantie de gegevens over de schepenen, de burgemeesters, de trossiers en de leden van de vroedschap en identificeerde hen zoveel mogelijk, waarbij identiteitsnummers werden toegekend. Andere lijsten volgden, zoals die van de drie belangrijkste categorieën stadsdienaren (kerk-, gasthuis- en Heilige Geestmeesters), en zeer voorlopige lijsten van de grafelijke beambten (kasteleins, baljuwen en schouten). Ook werden verschillende bronnen getranscribeerd die licht werpen op sociaal-economische kenmerken van de Goudse bovenlaag: brouwers en verstrekkers van leningen aan de stad.

Identificatie en naamgeving

De lijsten in de dataverzameling ‘De duizend van Gouda, de Goudse elite in de middeleeuwen’ betreffen individuen die ieder als zodanig erkend worden door toedeling van een identificatienummer. Zo’n toekenning is in het algemeen gebaseerd op naamsgegevens geput uit uiteenlopende bronnen in combinatie met ‘circumstantial evidence’. Bij dit laatste kan gedacht worden aan chronologische verenigbaarheid, het voorkomen in een aaneengesloten reeks bijvoorbeeld van opeenvolgende trossiersjaren, het ontbreken van homoniemen (gelijkluidende namen) en de overeenkomst in schepenzegels. Anders gezegd: een naam in een bron, bijvoorbeeld in het Stadsdienarenboek, is nog niet meer dan een naam. Pas als er een identificatienummer aan is gegeven, is vastgesteld om wie het gaat en kunnen we de persoon ook in andere bronnen uit dezelfde periode volgen. Een moeilijkheid is het veelvuldig voorkomen van homoniemen bestaande uit veel voorkomende naamsonderdelen, bijvoorbeeld Jan Dirksz. In het algemeen is voorzichtigheid betracht bij het gelijkstellen van personen die worden genoemd in bronnen met onderling nogal uiteenlopende datering.

De bronnen geven de namen van dezelfde persoon vaak in allerlei varianten. Een eerste stap naar identificatie is dus het normaliseren of standaardiseren van de spelling van die namen om diverse bronnen met elkaar in verband te kunnen brengen. In de lijsten zijn de namen dan ook meestal in een genormaliseerde vorm weergegeven.

Identiteitsnummers

De identificatienummers zijn tijdens de bewerking doorlopend maar in verschillende reeksen toegekend. Ze volgen geen consequent alfabetisch of chronologisch systeem. In de loop van de bewerking moesten sommige nummers vervallen; dat gebeurde stilzwijgend.

De reeksen:

Koen Goudriaan, "De 1000 van Gouda", Magistraat en vroedschap: Schepenzegels 1314-1589

- schepenen en burgemeesters: 1 t.m. (ca.) 556
- (substituut-) kasteleins, -baljuwen en -schouten uit de poortery (voorzover niet al van een nummer voorzien): 701vv
- vroedschappen en veertigen (nieuwe namen): 901-953
- tesoriers (nieuwe namen): vanaf 971
- enkele nagekomen burgemeesters: 1001vv
- de kerkmeesters van 1423-1483 (nieuwe namen): 1101vv
- stadsdienaren vanaf 1486 (nieuwe namen): 2001vv, met een na correcties ontstane reeks 2201vv
- de (nieuwe) namen in de bijlagen van Hibben: 3001vv
- de (nieuwe) namen van stadsdienaren van de jaren 1573-1589: 3100vv

Kijk voor een uitgebreide uitleg, inclusief afkortingen van bronnen en literatuur in het Algemene document over de gehele dataset.

Magistraat en vroedschap: Schepenzegels

De lijst van schepenzegels is bedoeld als alfabetisch repertorium. Schepenzegels worden op uiteenlopende manier in het Streekarchief Midden Holland bewaard. Schepenakten werden gepasseerd voor een drietal schepenen als vertegenwoordiging van het jaarlijkse zevental. Een groot aantal charters uit de middeleeuwse archieven is nog voorzien van een of meer van dergelijke zegels, al dan niet beschadigd. De regesten van deze akten zijn in chronologische ordening te vinden op de website van het archief:

<https://samh.nl/bronnen/indexen>. Als er zich nog zegels aan de akten bevinden, wordt dat daar gesignaleerd.

Een eerste verzameling schetsen van schepenzegels is te vinden in het Officiantenboek (OA inv. 445). Zij worden hier gesignaleerd in de kolom Off.

Verder heeft de stadsgeschiedschrijver De Lange van Wijngaerden veel aandacht besteed aan de schepenzegels. In het tweede deel van zijn *Geschiedenis en beschrijving van de stad van der Goude* (Amsterdam en Den Haag 1817), pagina 240-269, signaleert hij er een aantal, waarbij hij aangeeft of ze op een ridderlijke of een ambachtelijke status van de gebruiker wijzen. Veel meer wapens zijn in getekende vorm te vinden in zijn werkmateriaal, in de mappen 'Schetsen van wapens van Goudse magistraten' en 'Bijlagen bij de schetsen van wapens': Legaat Kemper (toegang 0096) inv.nrs. 257 en 258. Het gaat om vier reeksen, die elkaar overlappen en waarvan de onderlinge relatie moeilijk is vast te stellen. In dit repertorium wordt het voorkomen van een zegel in twee van deze reeksen gesignaleerd: een in het net getekende chronologische reeks die echter niet verder loopt dan 1500, en een veel ruwer getekende reeks die tot na 1600 doorloopt (respectievelijk LvWA en LvWB). In beide reeksen komen zegels voor die de andere reeks niet heeft.

Ten slotte bewaart het archiefdepot nog drie laden met zegels die van de oorkonde zijn losgeraakt en die vaak niet nauwkeurig te dateren zijn: toegang 0436.3; in dit repertorium Lade I, II of III. De plaatsing bij een bepaald jaar is hier dus bij benadering.

De zegels die zich nog aan de charters bevinden, worden opgesomd in de laatste kolom. Verwezen wordt naar de regesten bij de inventarissen van de desbetreffende archiefbestanden. De formule G123 betekent: Gasthuizen regest 123.

Het gaat om de volgende archiefbestanden:

- G: Gasthuizen (toegang 0074)
- J: Kerkmeesters Sint-Jan voor de Hervorming (0090)
- K: Kloosters (0091)
- L: Leproos- en Proveniershuis (0075)
- OA: Oudarchief stad Gouda (0001)
- OM: Oudemannenhuis (0089)
- W: Weeshuis (0076).
